

What you need to know

The **artists - artisans** of Essaouira give this small town all its charm and originality. Take the time to admire their creations, watch them work, and chat with them is to step into the heart of the medina and better understand its magic.

The artists selected here **make their own** small items (perfect for packing) often right before your eyes. You can also commission personalized pieces from them. Some offer workshops (marked by **w** on the map) so you can explore your own creativity.

You can start your tour at Atelier 43 ①, where Nathalie displays some of their work (items from some artists without shops are also featured). As always in Essaouira, you'll feel free to buy or not. And when prices are displayed, you will help the artists by avoiding negotiation.

Practical Information

Opening hours are almost never displayed. You're most likely to find shops open in the **afternoon**. If the door is blocked by a stick, come back a few minutes later. Shops are generally open every day of the week.

This selection of artists is based solely on the quality of their work. Created by Nathalie, Atelier 43, March 2026.

A quick visit to the artists of Essaouira
